Another Enterprising Agent.

SAN FRANCISCO, August 28.—In the United States Circuit Court this morning, suit was commenced against Oliver Chapman, late Indian agent at Camp Verde Reservation, Arizona, and his sureties, Wm. B. Hooker and Charles Barney, to recover \$10,000, the amount of his bond. Chapman had charge of the reservation from October, 1874, to June, 1875, and on his retirement his accounts showed a deficiency of \$900, besides which he failed to account for property to the amount of \$21,000 turned over to him by his predecessor.

Mackay's Doings.

PARIS, August 28.—John Mackay expects to leave Paris about September 1st on his return to San Francisco. He is now with his family at Tourville, near the sea coast, where they have rented a chalet for the season. He is suffering from rheumatic gout. Henry Rosenier and bride are with them.

Yellow Fever Notes.

NEW ORLEANS, August 27.—New cases of yellow fever to-day, 220; deaths, 57.

MEMPHIS, August 28.—There was eighty new cases reported up to noon to-day, while the indications are that there will be quite an increase in the death rate. The negroes this morning became clamorous for rations. About one thousand men, women and children surrounded the commissary depot, and it was found necessary to station a guard from the colored military company to keep back the crowd. Numbers of the well ones are still leaving the city aided by the Citizen's Committee.

The Howards this morning opened the Market street school building as an infirmary, or Howard Home, for the reception of the pauper sick. They have also established a medical corps of ten physicians under the direction of Dr. R. W. Mitchell.

NEW ORLEANS, August 28.—The Howard Association relief list is gradually increasing. The new applications number about 125 daily. The Young Men's Christian Association now have 100 patients on their relief list.

A dispatch to the Picayune from Col. Bennett, dated Brookhaven, Miss., says that there is not a case of yellow fever in or around Brookhaven. We cannot hear of a case of yellow fever between Canton and New Orleans, over 200 miles. Reports from coast towns along the Mobile road show there is no fever at any point between New Orleans and Mobile.

VICKSBURG, August 28.—Seven hundred cases of yellow fever have occurred here.

CHICAGO, August 28.—Collections to-day for the yellow fever sufferers up to noon were \$2000.

Stage Robber Killed.

TUCSON, August 27.—The mail robber who has manipulated so many stages in Northern and Southern Arizona, and in Mexico, was killed by a Sheriff's posse, three and a half miles south of Tucson, last evening, about 8 o'clock. His name was William Brazleton. He was six feet tall, had blue eyes, and weighed 190 pounds. A confederate furnished information to the authorities, that he would be at a certain place at the time. The mask and other well-known disguises, a gold watch and chain and other articles, taken from passengers at different times were on his person, but no money. It is supposed the money is hid near town. There is most positive evidence of his guilt in a large number of stage robberies. His betrayer makes a clean breast of the whole affair and gives startling accounts. Great excitement here. He is the man who robbed the stage between Antelope and Wickenburg, and made Ed. Peck open the treasure box and Dan Thorne cut the mail bags. He was not concerned in the recent stage robberies near Picachio Station and Mariposa Wells. These latter were committed by four Mexicans. Deputy United States Marshal Evans is now in Sonora, in close pursuit of them.

New Patents.

The Mining and Scientific Press Patent Department has received official notice of the issue of the following patents to Pacific coast inventors, for the week ending August 13th, 1878, viz: Otto T. Brockhausen, Reno, Nev., blasting wedges; John Lennon, San Francisco, Cal., wheelbarrows; Lowry B. Rowland, Monmouth, Oregon, horse-power equalizers; Samuel H. Cowles and Benjamin B. Brewer, Sacramento, Cal., propelling vessels; Adolph H. Ran, San Francisco, Cal., lawn mowers; Lorenzo B. Lawrence, Monticello, Cal., and A. G. Strawbridge, Sharon, Pa., stove attachments.

Michael Reese Dies to Save a Few Bits.

SAN FRANCISCO, August 28.—A later account of the death of Michael Reese, states that after walking five miles to the cemetery, to avoid carriage hire, he scaled the cemetery fence to avoid a customary fee to the sexton; that after he had spent sometime at the graves of his parents, he scaled the fence again, when he was seized by the sexton. Reese denied that he had been in the cemetery, but, as the sexton caught him in the act of leaving, he concluded to take him before the Burgomaster, when an angry altercation followed, during which Mr. Reese fell dead.

Two boys about 18 years of age, sheep-herders in the Klikitat Hills, W. T., while cooking their supper were attacked by eight drunken Indians, but armed only with a butcher knife and ax, managed to hold the cabin against their assailants two of whom they seriously wounded and perhaps killed. The boys' names are John Spoons and John Johns.

POOL YOUR POETRY.

Chip into the pot:
Come, follow me over the seas, my love,
To the land of milk and honey;
We'll pool our issues, and build us a house,
And we'll build one without any money.
—Boston Post.

Nay, follow me, love, to the wild sand lot,
Where Wellock 'owin in his pride;
We'll pool our issues and never we'll work,
But we'll make the rich divide.
—Alta.

No work will I do, but howl till I'm hoarse,
An' call for the frequent collection;
We'll pool that issue, me own thru love,
An' fly on the ave av detection.
—Asta.

The Stock Exchange takes this view of certain issues which have been bought by American citizens:

Troy Dye went into the butchering business to help the office of Public Administrator, whose incumbent he was. Business was too dull to afford him support; hence by the killing of a few rich men he wanted to make the office pay. When Dye confessed, it was evident that he must resign his high but unprofitable office, and immediately a score of self-sacrificing Sacramentoans entered the lists to fill the vacancy. But the people of Sacramento are always after the honors, caring but little for the profits. Is there an office within the reach of an American citizen that he won't reach for?

Beecher Censured.

The Kearney Invincibles met on Sunday evening at Charter Oak Hall, and agreed to be known in future as the Kearney Grenadier Guard. The stand taken by H. W. Beecher in reference to the impossible elevation of the workingmen was discussed, and a resolution censuring the course taken by one whom the workingmen consider the hiring of monopolists was unanimously adopted.—*S. F. Chronicle.*

Deputy Sheriff Widdowfield and a hunter named Vincent, who started from Cheyenne a week ago on the trail of a gang of robbers, have been found dead in a canyon of Elk Mountain, Wyoming, and perforated by bullets. The gang had tampered with the rails on the overland route with the intention of ditching the train, but the mischief was discovered and the two men mentioned were sent out to discover, if possible, the location of the desperadoes.

The glass blowers employed by the Central Glass Company of Wheeling, West Virginia, have gone on a strike because the company refused to discharge an old employee who had left the Union. Three hundred persons are thrown out of employment.

SPECIAL NOTICES.

Don't Forget it.
If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts, as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid at this season of the year, as poisons arising from marshes, stagnant water are more numerous, and are, through inhalation, taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not treated, end in more terrible diseases and death. White's Prairie Flower proves itself the great liver panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price, twenty-five cents and seventy-five cents. For sale by our druggists, OSBORN & SHAWAKER.

A FABLE.

A compromise was once proposed between the lions and the remainder of the animal kingdom in regard to a division of the food. The lions argued that they killed all of the meat, therefore they should be allowed to eat it all. Said the lion: "You must curtail your appetites and learn to eat grass. If you don't, why we shall eat you, and then our desires will be attained."

The jackals, who followed the lions about and fed upon their refuse, set up a howl of satisfaction at the proposed plan, and commenced lobbying for the bill.

The asses, knowing themselves beneath the kingly notice and too tough to be an article of food, fell in with the plan, and brayed their loudest in order to drown the objections of those whom it was proposed to starve.

The others, however, seeing themselves threatened with starvation, made common cause against the lions, and drove lobbyists, jackals, asses and all from the field.

The kings seeing that success was impossible, forsook the position for the time, resolving to try again.

At the next assembly the affrighted beasts were all expecting another assault upon their liberties, and were prepared to resist it. The kings, however, fought shy of the issue, and put forward speakers to quiet the public pulse.

These men cried in a loud voice: "We have always favored meat as an article of food. You have our permission to eat what you can get."

The assemblage, however, did not receive this as an assurance of fair division, and at the next opportunity "pealed their issues" and drove the gluttonous beasts and their followers out of power.

Moral—if you chance to be a political lion or jackal, don't imagine that the people are all asses.

POOL YOUR ISSUES.

There is one thing which equals the cheek of a politician in durability. That article we believe is the diamond. There is one thing also which equals the easy negligence of the people in affairs political. That is the self-satisfaction of the sinner who believes in universal salvation, put in this way.

We learn from the Nevada *Herald* that "Indian Pom," who threw a train from the track near Truckee, has plead guilty to the soft impeachment and will be given an opportunity to "bewail his folly" in jail. Pom will now experiment upon the laws of gravity with a heavy heart instead of a freight train.

Mary Kyle Dallas is out in the New York *Ledger* with an essay commendatory of old maids and condemnatory of old bachelors. It might readily be presumed that Mary Kyle was an old maid, but this is not true. Miss Dallas is wedded to the idea that her opinions are of great importance.

The German authorities have named twenty-three public houses which soldiers are forbidden to visit because of their socialistic character. The Dutch soldiers who came over the Rhine are thus prohibited from drinking any more beer in the socialistic way.

Without desiring to be captious and having no wish to interfere with his trade we feel like suggesting to Mr. Kearney that "Hurroo fur hell" that, as a political platform, is not quite broad enough for a majority of American citizens to stand upon.

One rumor sharp says that Daggett will have easy sailing in White Pine. Another rumor is just in with the news that White Pine harbor is full of rocks and shoals. The choice of pilots is therefore considered of prime importance.

We notice that the Oakland *Tribune* still calls its stealings "excerpts." Our office assassin is blind with rage.

The Bank Commissioners report that they find the C Street Bank, of San Francisco, in a sound financial condition.

EDITORIAL NOTES.

The slimy vagabone who maintains his hell-bound existence by filling the putrid columns of the San Francisco Stock Exchange with scrofulous abuse of Sir Rupert Kearney now blows his fetid breath upon the white-plumed editor of this metropolitan journal. He describes him as "a miserable lickspit of a corrupt monopoly." Though midnight skies and hell itself overflow with the festering corpse of the lecherous bondholder of the Exchange, there will be a row when the GAZETTE'S boss Navarr goes to the Bay. We'll strew the plains wide!

At a recent sand lot meeting Barton Hill was arraigned and asked why he had dared to invite the Chinese embassy to visit his theatre. Mr. Hill said humbly that he meant no offense to the workingmen—merely did it in a managerial capacity. These explanations are getting too thin. If Mr. Hill's crime can be explained in that way, the Kearneyite might as well pawn his tomyhawk, for there will be no grounds upon which to assassinate any of the lecherous bondholders.

The merchant, even, who sells John supplies, will go scot-free.

General Connor has requested the Republican Committee of Nye to rescind its action and allow delegates to go to convention unpledged. This act is a large card in Mr. Connor's favor, as he says that he will not allow any suspicion of sharp practice to attach to his candidacy. R. M. Duggett, of the *Enterprise*, has followed the lead of Connor. The Crawford plan in Storey is merely another way of pledging, and when it is tabled, the convention will probably be in the enjoyment of its rights.

H. L. Knight, one of the Workingmen of San Francisco, has written a long letter to the New York *Herald*, denouncing Dennis Kearney in good set terms, and affirming that but for him and his proven villainies the workingmen would have carried the State at the constitutional election. Knight was fired out by the little drayman and the public is waiting for some one to fire Dennis. Knight is not the man.

Through the courtesy of Theo. Lynch we have received a complimentary ticket for the Golden Gate District Agricultural fair, the same to take place September 7th to 14th, inclusive. The ticket says "and lady." We are thankful for this delicate bit of flattery, for it suggests that we have a lady. If such is the case she can hear something to her advantage by calling.

OPENING EXERCISES.

A Pleasant Hour at the Episcopal Seminary—Reminiscences.

At ten o'clock this morning the formal opening service of the Episcopal seminary was conducted by Bishop Whitaker. This exercise was not remarkable in itself, yet is significant of an occurrence fraught with importance not alone to those immediately interested, but to all who have at heart the best efforts of educational labor. It also calls to mind a scene of our days, when those who felt deeply interested in our welfare looked over the assembly-room and felt that before them sat those whose characters were being largely formed under the influence of the instructor. We almost dreaded some new study, and had not forgotten the vacation times, but were too much engaged with the various thoughts of the hour, the pleasure of meeting again our classmates, to comprehend the more sober perceptions of our seniors, or otherwise regard the situation of things with pleasant anticipation. When we saw Bishop Whitaker this morning, with the full heart of a sympathetic, intelligent parent, conducting the exercises of the occasion, and apprehended his spirit's delightful care, the sense of real pleasure which he took in his godchildren, and in passing them into the hands of their teachers, we called to mind a similar scene in our alma mater, the University of California. The north college had just been completed and the new college year had just begun, but the University had a financial crisis yet to pass through. Nearly three hundred students and a large number of visitors and regents, with the professors, sat in the yet uncompleted assembly-room before President Gilman. But one man whose heart and mind felt most deeply an abiding interest in our success and the final success of the University, with folded arms and thoughtful face, stood leaning against the wall. This man was Rev. Horatio Stebbens, of San Francisco. We watched his face as if even superficially to read his thoughts as he comprehended the situation and drank in the eloquent words of the speaker. How from deep care and thought this eruditus Hercules was lead by the language of the hour, the fond belief that such institutions must live and those forming minds before him mature to fill leading positions in the world of thought, in the leading professions and industries of life. Similar were our impressions of Bishop Whitaker to-day. It was a glimpse which one has occasionally of real men when their better selves unconsciously show that the human heart may at times bespeak its quasi divine impulses and action.

The particular order of this opening exercise of course possessed little interest to the general reader. It was pertinent and complete. This school opens most favorably. It is under the best regime and we but feebly voice the sentiments of our people when we say that the citizens of Reno, in particular, and those who sympathize with the cause of education in this State, are proud of Bishop Whitaker's School for Girls.

TROTTING RECORD.

EDITOR GAZETTE:—I noticed an item in the Journal of the 27th saying that when Flora Temple made a mile in 2:40 it was thought remarkable. No doubt it was by her owner, but 2:40 time was made something like forty years ago—long before Flora saw daylight. Flora's time was 2:19½, made at Kalazanazoo, Mich., in the summer of 1859. The time of Flora then was considered remarkable. The Journal says Dexter's time was 2:17. Again that paper must stand corrected. Dexter's time was made at Buffalo, N. Y., in August, 1867, 2:17½, the last time he was ever on public exhibition, Robert Bonner purchasing him then and there, and taking him immediately home with him to New York. HORSEMAN.

A Rattlesnake in a Cellar.

There was a sensation yesterday in the household of Mrs. Goeggel, who lives on Fourth street. Mrs. Elliott, Mrs. Goeggel's daughter, descended to the cellar for some article, and was startled by a strange rattling noise. The lady was horrified to discover, upon a shelf, an angry rattlesnake, just coiling itself for busines and darting out his tongue. With more pluck than one woman in a thousand would show under the circumstances, Mrs. Elliott caught up a stick and di-patched his snakeship. The reptile was not a very big one, having only four rattles. It is very rare that snakes are found in Reno, (except in the journalistic boot), and this is the first rattle that we have heard of as being seen hereabouts.

Bradley's Bomb-Shell.

Bradley's first campaign document has appeared in the form of five reasons why he should be given a life lease of the Gubernatorial chair. The questions are asked by the *Bush-light*, Mr. Bradley's organ, and might all be answered if they were worth the space. By some mysterious dispensation of Providence the *Glimmer* has been posted up at the various places through town where it strikes the eye of the pedestrians and amuses them by its presumptions, and ill-concealed strike for the mossy-backed vote.

Settle.

Our debtors will all receive notification of their liability in a few days. When received, an examination of assets and a fair division will greatly oblige us. Meanwhile the daily GAZETTE \$10 a year, (invariably in advance). The weekly is still held at the absurdly low rate of \$2.50, (also invariably) and job work is, as heretofore, respectfully demanded.

FOR
Indigestion, Dyspepsia and Nerv-

The Purest and Best
FOR ALL

Medicinal and Family Purposes.

HAS BEEN SOLD IN ALL THE EASTERN STATES AND GIVEN UNIVERSAL satisfaction. It is highly recommended by the Faculty for all cases of Nervousness, Weakness, Debility, Dyspepsia, &c. It is also sold to the public on the Pacific Slope, endorsed by certificates of the eminent DR. J. HAYES, State Assayer of Massachusetts, and DR. H. C. LOUDERBACK of St. Louis, Mo., both gentlemen prominent in their profession, and which is a guaranty to all buyers of its purity and quality.

I can show thousands of letters from private persons, from all parts of the Union and Canada, testifying to its merits and the success it has afforded, as a safely remedial tonic.

Dyspepsia is called the mother disease of almost all maladies and complaints why have been. It is frequently said that people work too much, eat too fast, sleep too little, tax the powers of nerve and brain too incessantly, drink too much ice water, eat too much hot bread, smoke too much tobacco, give way to too much excitement, and consequently play themselves out in the shortest possible time. "A short life and a merry one" seems to be the sentiment that chiefly influences a large number of persons, but for all these feelings, as well as when such exist in health, Dr. Hayes' NABOB WHISKY, which should be attached to the opinion of physicians, will charge the great prevalence of dyspepsia and nervousness to any of the causes mentioned, it cannot be denied that there are some applications received by druggists throughout the country for medicines to relieve and cure stomach and nervous pains and disorders, and all other maladies that afflict humanity. As might be expected under the circumstances, a large number of specifics to successfully counteract these diseases fail to do any good. Whenever, therefore, any alleged new remedial agent is spoken of, very little confidence is felt in it by reason of numerous past disappointments, so that people who are chronic sufferers from dyspepsia, indigestion, physical weakness, or nervousness almost despair of being cured. They, however, take too despondent a view of the matter, for those who have used the celebrated NABOB WHISKY, which can be had from all reliable druggists and grocers, know well enough that it is a sure remedy for all the maladies referred to, that its specific properties are of the most strengthening character. Many persons who found it impossible to properly digest a single meal, and whose physique had been sadly attenuated, have derived immediate benefit from the NABOB WHISKY, and in a short time, by its regular use, regained all their health and strength. It can be taken with impunity, as no drugs are incorporated with it, and its healthy action on the human system is of course felt. The effect which it produces on the system, which is to say, to create a strong, healthy, and robust digestion case, no matter what the habits of the sufferer may be, and it at the same time steadies the nerves and stimulates the brain. There are no fictitious claims for the great remedial agent, so that all persons who are troubled with dyspepsia or nervousness would be false to themselves if they failed to test its curative qualities. Its sale is rapidly on the increase, and the better it is known the more it is used.

CAUTION—None genuine unless labeled with my signature over the cork.

THIS DISCOVERY
Is the result of a series of Scientific Experiments based upon the theory that "for the successful cure of Wasting Diseases, the nervous system must be made vigorous and healthy."

One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs, is a loss of nervous power. This is followed by muscular relaxation, weakness, and emaciation of all the organs which depend upon them for health, or vice versa.

The Inventor, acting upon this idea, that the muscles and nerves depend upon each other for efficient strength and action, and that they must be treated directly in order to speedily and permanently cure diseases of the organs which they control, became convinced, after many trials, that this other preparation produced such potent and direct effects upon the nervous system as his
